

APEXTEXT

Extended Text System for the Apple //

APEXTEXT extends the power of any Apple* to a professional level with:

Normal, wide, tall, expanded and large size characters; Lower case; Bold type; Inverse; Thirty-two colors; Choice of Background and Character color; Block graphics allowing fast, easy animation from BASIC; True underlining; Two built-in sound routines; Hi-res screen clearing routines; Up, Down, left and right scrolling; Overstrike; Large character special color functions; Combination graphics and text on the same screen; Includes more than 20 fonts (typestyles); Double Hi-Resolution

More APEXTEXT features and functions:

- Speed & versatility (written entirely in machine language & may be used in virtually any application)
- Compatibility
 - Works with Apple* II, II+, //e, //c, & IIgs
 - May use fonts created using other software packages
 - May be used from Applesoft and Machine Language
 - Both ProDOS and DOS 3.3 Disk Operating Systems
- Fully listable and unprotected
- Low memory requirement (leaves memory free for your use)
- Clear, concise documentation
- Full support programs
 - *Font Printer* for making signs, bulletin boards, or banners on any printer and interface card
 - *Apertext Screen Machine* for typing text on any hires screen or creating color slides for presentations
 - *Large and Small Font Editors* for creating and changing your own character sets
 - *Large Font Swapper* for exchanging characters from one font to another
 - *Puzzle Maker* for creating character sets from any hi-res screen
 - *Apertext Demo and Sample Programs* to give further insight into the program
- Excellent instructional tool (math symbols, foreign languages, highlighting, colors, and sizes)
- May be used in computer classes, demonstrations, workshops
- Create interesting, professional displays or billboards easily with limited or no programming knowledge
- A simple message display program for cable television stations is also available

Apex Software Policies

Apex Software guarantees all of its diskettes will boot and run on a normal Apple II computer. If a disk should fail to boot, return it for replacement. If this occurs more than six months after purchase or the diskette is physically damaged, there will be a \$10 replacement charge. At the option of Apex Software, the diskette may contain a revised version of the software.

All prices are subject to change without notice. All payments must be in U.S. funds drawn on a U.S. bank. Make checks payable to:

Call for further information: Contact Apex Software for dealer information, classroom sets, or information regarding license agreements.
